

# New Motor Now Fully Housed Inside Of Wheels

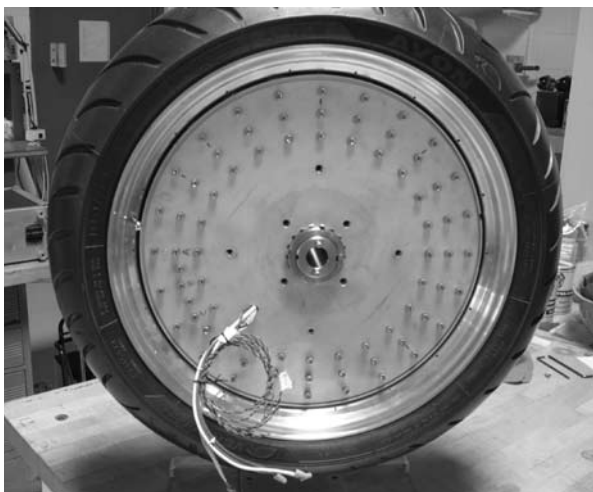

Finally a wheel motor with the required capability for EVs is being taken beyond a prototype!

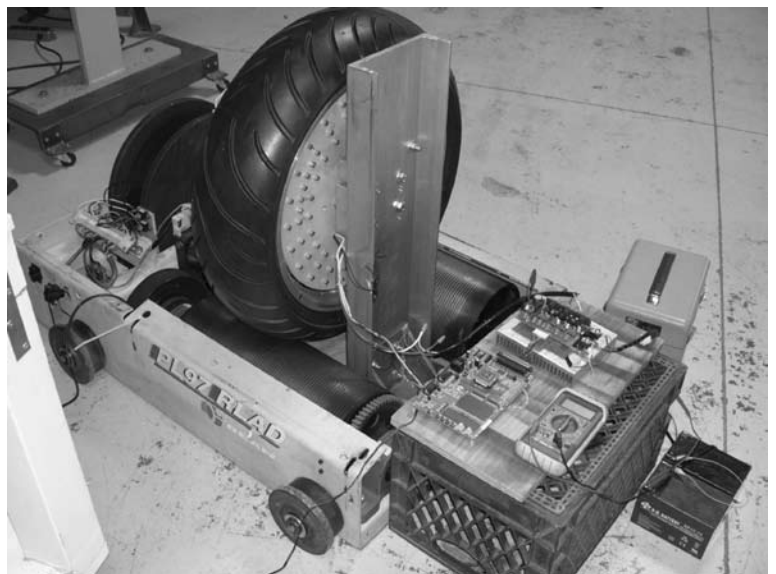

Frontside view

Internal coil arrangement, bearing and spindle assembly

Backside of wheel

Wheel motor on a dynamometer

This wheel motor will be displayed at the Austin Altcar Expo  
[www.austinenergyaltcar.com/](http://www.austinenergyaltcar.com/) on October 17 & 18.

Victor Wowk (Machine Dynamics, Inc.), from Rio Ranchos, NM has produced this unit.  
Come see this intriguing item in Austin and look for further details on this development in a future issue of Current Events.
